LETTERS FROM THE BOYS IN UNIFORM

"v"

Mr. S. Orris.
Dear Friend:

Just a few lines to thank you for the paper. I hear you are leaving Champion soon and believe me I'll sure miss the paper as we look forward to paper days.

I am in the best of health and have finished my course and am waiting to be moved. We only have a small amount of fatigue work to do so it's beginning to be monotonous but expect to go soon.

Well, as news is scarce I'll close, again thanking you for the paper and wish you the best of luck in your new location.

I remain yours truly,
Roy Taylor.

Dear Sir:

I will begin by thanking you for all you are doing for us over here, first the paper and now cigarettes, they are both appreciated very much.

I am now going to ask you to do me a favor, if by any chance you got that harvest job you advertised for in the Chronicle will you please file the farmer's name as I would sure like to know it when I get back.

We are having some lovely weather here at the present time and I sure hope it continues. Now Mr. Orris to close with if you have a spare corner in your paper will you please give my regards and thanks to all my friends.

Yours sincerely,
A. Danipace.

Dear Sir:

Please accept my thanks again for the cigarettes received today and believe me the boys over here do appreciate the kind efforts of the folks of Champion and district in making it possible for us to have good smokes from Canada. I'll say they can't be beat, one of our worst trials is smoking the English brands. Been having a bit of cold rainy weather lately, not of course any 20 below stuff, but chilly just the same.

Cherrio folks,
Jim Buchan.

A SOLDIER'S CHRISTMAS

Christmas has always been a family day. A day when sons and daughters and grandchildren gather once again at the old home and renew the ties of kinship which are so much a part of our life.

It is at Christmas our thoughts go out particularly to the soldiers, sailors and airmen who are far away from home and amongst strangers. There will be longings in their hearts for those at home and all the things that make the home so dear at Christmas. There will be longings in the hearts of those at home too, for the members of the family who are unable to be present to complete the family circle.

The absence of loved ones from one another should make us all think more of the spiritual significance of Christmas day. The birthday of Christ has always stood for the fellowship of man and in fighting this war it is our purpose that "Peace on Earth, Good Will Towards Men" should become a lifetime reality and not just a Christmas wish.

Let us pray that when Christmas comes again our loved ones will be with us, and that we can go about building the world our boys have fought for.

"V"

SAVINGS STAMPS FOR CHRISTMAS

The Dominion Government have made it very easy for the citizens of this community to demonstrate their patriotism during this Christmas season. In the Post Office and Banks are very attractive Christmas cards,

with a space for the attachment of War Savings Stamps and Certificates. These cards are as attractive as many which can be purchased in the stores throughout the district, and have the saving grace of being free.

All that is necessary is that the citizen go to the Bank or Post Office and ask for Christmas cards, and insert therein one 25 cents War Savings Stamp, or more if they are so inclined, and send to their various friends a present which has a future.

We are sure that every citizen who has the welfare of the country at heart, will be utilising this method of conveying their Christmas greetings to their friends.

"V"

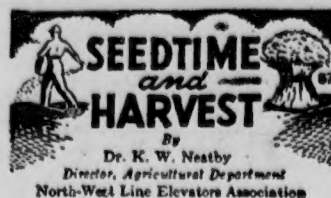

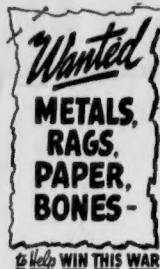

THE PLEBISCITE

The council of the Municipal District of Harmony are to be congratulated on their decision to comply with the request of a public meeting to hold a plebiscite on the question of the Enlarged Municipal District.

While the result of the plebiscite, and we are certain what that result will be, may not alter the Government's stand in the matter, it will at least be an instance in which a definite expression of opinion has been obtained, thereby placing the responsibility for the continuance of the scheme solely upon the Government.

If every municipality in the province would take an "off the record" vote on this question it would provide a united front of public opinion the government could ill afford to ignore.

More power to the Municipality of Harmony. Let them carry their fight as far as they can and as hard as they can without compromise of any kind. In doing this they are discharging their duties to their ratepayers and building toward a better Province.

What Shall We Do About It?

In our last article an attempt was made to stress the permanent damage being done to our farm lands by erosion, and the urgent necessity of undertaking corrective measures. We promised to offer a few suggestions.

We believe that the Dominion Government should outline and announce a long-term soil conservation scheme at the earliest possible date. The problem will never solve itself, and it will never be solved by year to year expedients.

It is probable that the good, reasonably level land on the open plains can be devoted to grain farming almost indefinitely, and soil drifting controlled by strip farming and good tillage practices. In the park and wooded areas, where both soil drifting and water erosion are doing serious damage, grasses and clovers must play an important part in any effective conservation programme.

Obviously, any scheme must recognize the differences in farming conditions between the open prairies and the park and wooded areas.

Too many of us think of forage crops only in terms of markets for livestock. This is a secondary consideration. The soil must be preserved. If acreage payments are to be made in 1943, we suggest that greater encouragement be given to grasses and clovers in specified areas. You say where is the seed coming from? I reply, from whence will it come in five years time if we don't start now?

Ask your local line elevator agent for a leaflet dealing more fully with this subject.

Advertise It!

A SERIOUS COAL SHORTAGE

There is already a serious coal shortage on the prairies. Farm families will suffer severely unless it is remedied. We recommend farmers to write to their Members of Parliament and to the Department of Natural Resources at Ottawa, urging that more men be allotted to work in our prairie coal mines.
